Profile

A driven and meticulous self-taught developer with an exceptional grasp of front-end principles. My fervor for crafting remarkable user interfaces and delivering exceptional experiences is unmatched. Possessing advanced expertise in JavaScript, React, and React Native, I am confident that my fervor for building exceptional products and resolving complex technical hurdles will enable me to excel as a React Native developer. My aim is to gain valuable experience and collaborate with industry stalwarts to enhance my knowledge and skills.

Work experience

01/2023 – 06/2023   TANZANIA(REMOTE)
Application developer
Tiketi Popote
- Successfully developed a cross-platform mobile application for a Tanzanian-based bus ticket booking company while working remotely
- Demonstrated expertise in integrating the application with the backend using Rest API
- Designed a visually appealing user interface that enhanced the application's overall user experience
- Leveraged technical skills to ensure seamless performance and functionality of the application
- Effectively managed project timelines and resources to ensure timely delivery and optimize productivity

Education

08/2022 – 12/2022
React Native Course
Zero To Mastery Academy
- Successfully completed a comprehensive React Native course at Zero To Mastery Academy
- Demonstrated proficiency in React Native concepts and techniques
- Crafted a fully functional Restaurant Finder application using practical knowledge obtained during the course
- Acquired a strong foundation in React Native that can be leveraged for future projects and

Skills

Languages & Frameworks

HTML and CSS	
Javascript, TypeScript
